

Min-Height

Block Level Elements

Content in a paragraph : height: 100% / min-height: 50px

A large, solid dark gray rectangle occupies the majority of the page below the text. It represents a block-level element where the height is set to 100% of its container, but a minimum height of 50 pixels is enforced, ensuring it is never shorter than 50 pixels even if the content is sparse.

Content in a paragraph : height: 100% / min-height: 8em

Content in a paragraph : height: 100% / min-height: 50%

Elements Nested

Example#1 : Containing element : height: 100px. Content in a paragraph : min-height: 70%

A large, solid dark gray rectangle occupies the majority of the page below the first text block. It represents the visual output of the CSS example where a containing element has a fixed height of 100px and its nested paragraph has a minimum height of 70%, resulting in the paragraph filling most of the container.

Example#2 : Containing element : height: 100%. Content in a paragraph : height: auto
