

Min-Height

Block Level Elements

Content in a paragraph : height: 100% / min-height: 50px

A large, solid dark gray rectangular block that occupies most of the lower half of the page. It represents a paragraph element with a minimum height of 50 pixels, demonstrating how the height property (set to 100%) is constrained by the min-height property.

Content in a paragraph : height: 100% / min-height: 8em

Content in a paragraph : height: 100% / min-height: 50%

Elements Nested

Example#1 : Containing element : height: 100px. Content in a paragraph : min-height: 70%

A large, solid dark gray rectangle occupies the majority of the page below the first text block. It represents the visual output of the CSS example where a containing element has a fixed height of 100px and its nested paragraph has a minimum height of 70%, resulting in the paragraph filling most of the container.

Example#2 : Containing element : height: 100%. Content in a paragraph : height: auto
