The grid-template-rows Property
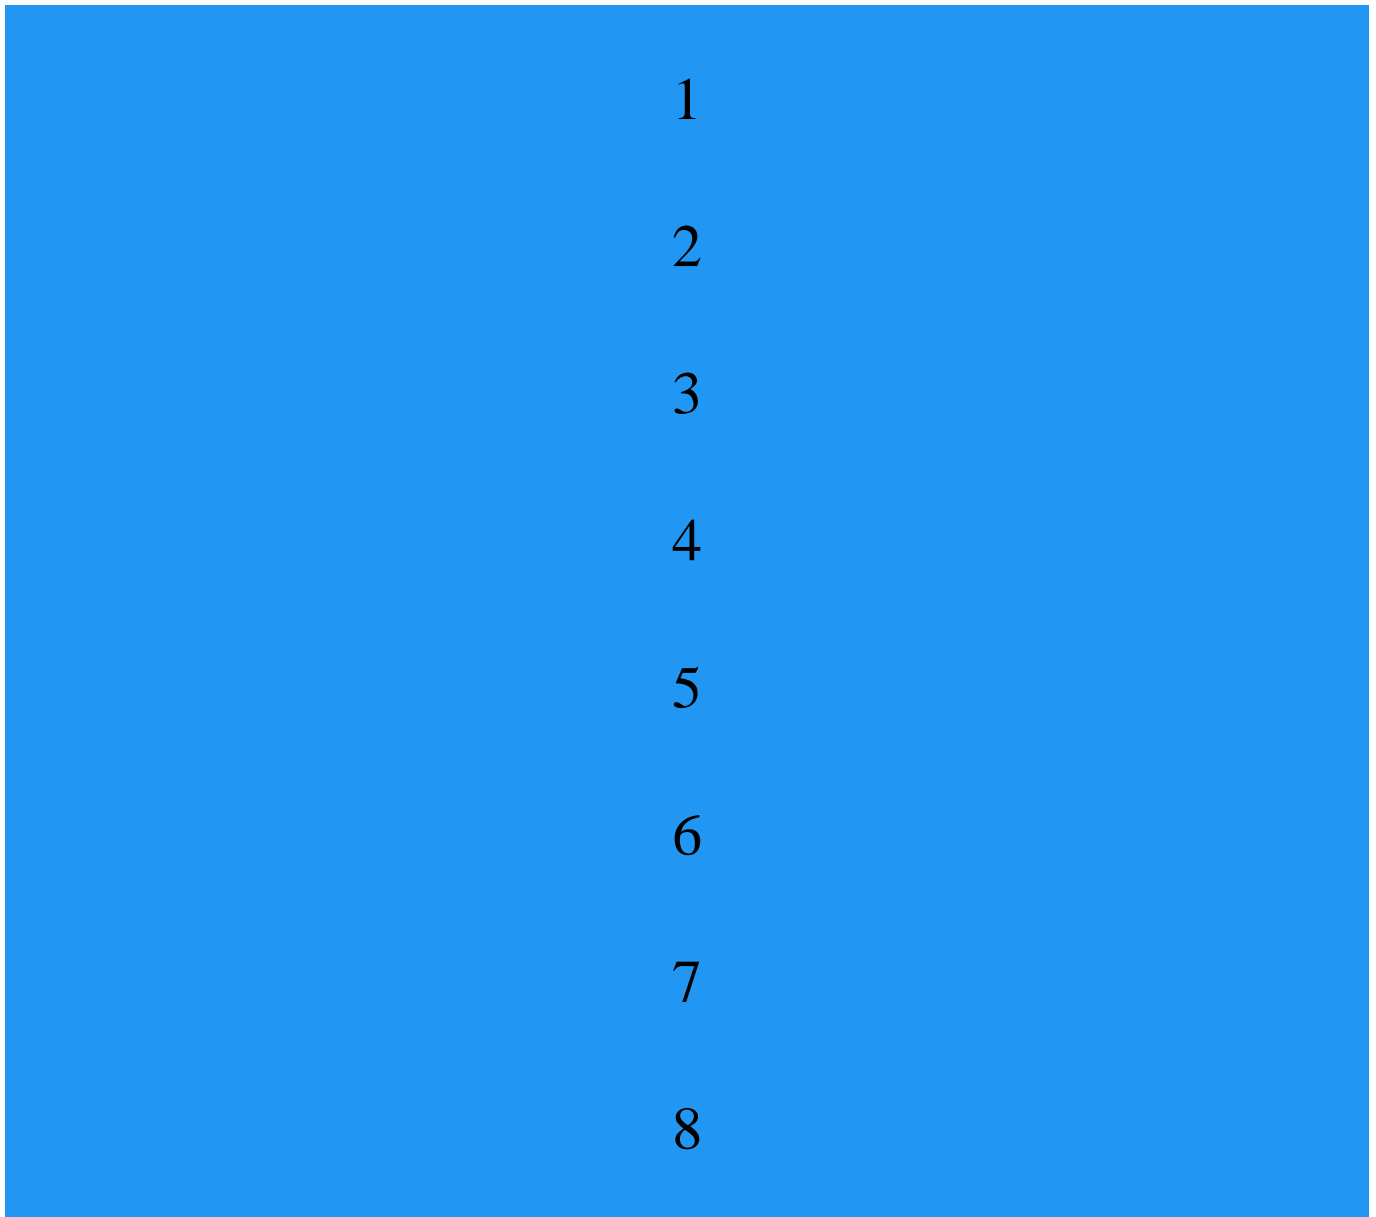

Use the *grid-template-rows* property to define the size of the rows in a grid layout.

The first row in this grid is 100px high, and the second row is 300px high:

1

2

3

4

5

6

7

8

The grid-template-columns Property

Use the *grid-template-columns* property to define the number of columns in the grid layout.

This grid layout has four columns:

1

2

3

4

5

6

7

8
