The font-size-adjust Property

Note: Only Firefox supports the font-size-adjust property.

Two divs with the same font-size-adjust property:

You control the font size better with the font-size-adjust property.
You control the font size better with the font-size-adjust property.

Two divs without the font-size-adjust property:

You control the font size better with the font-size-adjust property.
You control the font size better with the font-size-adjust property.
